Projects

Library Management System
A library management system keeps track of new books and records of books issued, along with respective dates. It offers an easier and hassle-free way to handle and automate library management. This computer science final year project includes advanced features and a seamless interface for maintaining records of the library, the history of books issued, and fines.

E-commerce Website (Artworks)

With its extensive range of themes and customizable options, Doodle works allows sell to create visually stunning online stores. It also offers secure payment gateways and integrated shipping options, making it a popular choice among artists..

Snake Game

The snake in the Snake game is controlled using the four direction buttons relative to the direction it is headed in. The player's objective in the game is to achieve maximum points as possible by collecting food or fruits. The player loses once the snake hits the wall or hits itself.
